Dear Reader:

This letter provides you with the Finding of No Significant Impact (FONSI) and Decision Record (DR) for the Lacks Creek Management Area Final Management Plan. The preliminary plan and environmental assessment (EA) was published in August, 2008, followed by a 30-day public comment period. Based upon public comment and further Bureau of Land Management (BLM) review, changes have been incorporated into the final plan decisions which are attached to the DR. The DR also summarizes the public comments on the preliminary plan/EA, and BLM responses. Finally, the DR describes administrative remedies that may be available to those who believe they will be adversely affected by this decision.

The Arcata Field Office would like to thank everyone who participated in the planning process for Lacks Creek, and looks forward to working with partner organizations, agencies, and the public in implementing habitat restoration projects and providing for recreation opportunities. If you have any questions, please contact Bob Wick of my staff at (707) 825-2321.

Sincerely,

Lynda Roush  
Arcata Field Manager
